ExpertClean

New!

## Expert-level clean. Expert-level progress.

Meet the new Philips Sonicare  
ExpertClean

# Why ExpertClean?

A professional clean feeling for better checkups

## Pressure sensor

You might not notice if you're brushing too hard, but your ExpertClean will. If you need to ease up, the toothbrush will make a pulsing sound.

## Brush head replacement reminder

Lights up when you need to replace your brush head.

## 3 cleaning modes

ExpertClean comes in 3 modes: Clean, Gum Health and Deep Clean+ to take care of your personal brushing needs.

## 3 intensity settings

The three intensity levels allow you to choose between higher settings to boost your clean and lower for more sensitive mouths.

## App with Bluetooth connectivity

- Personalized feedback from the Philips Sonicare app provides guidance and helps you achieve your personal oral care goals for exceptional check-ups.
- Tracks brushing time, frequency, brush head usage and amount of pressure used.

Philips Sonicare ExpertClean also comes with a travel case and 3 premium brush heads.
